

Project	Location	Description
ACT	17 Dune Sites across Ireland	In the era of accelerating coastal erosion the project will deliver a training program empowering 240 participants and 15 trainers across 17 Ireland's coastal communities to implement sustainable, nature-based solutions and community stewardship for climate resilient dune management.
King's Park Primary School	Antrim	Developing an outdoor learning space and writing a Green Curriculum for pupils that will be shared with all schools in NI.
Tograí Chleire	Cape Clear Island, Cork	Development of Community Eco-Hub Garden
The Rural Hub	Cavan	Drawing on the strength of grassroots solutions, Climate Lens promotes climate education & action through community-based participatory activities. By combining photovoice workshops and flipped learning with local climate festivals, it aims to inspire communities to take meaningful climate action.
Down Syndrome Ireland Clare branch	Clare	Refurbishing a property recently purchased in Ennis to create a community centre offering therapeutic services, training, education, and recreational events for members and families in County Clare .
Clonpriest National School	Cork	The completion of two vital projects at Clonpriest National School - Development of Outdoor STEM Area & polytunnel. To support Green Schools programme/sustainability and benefit the whole school community.
Irish Bee Conservation Project	Cork	Outreach, Education and Engagement with communities on the critical role of pollinator species enabling communities take positive action in support of pollinator friendly local environments
Sunday's Well Rugby Football Club	Cork	Taking the next steps to achieve goal of being 'Carbon Neutral by 2030'.
2nd Cork Ballyphehane Scout group	Cork	"Community Solar Journey" will see the installation of a new solar energy system to our community hall premises.
Triax Social Economy Project	Derry	Expansion of allotment site which will reduce carbon footprint and help provide more organic produce for the project's food bank.
Gairmscoil Mhic Diarmada	Donegal	Fostering biodiversity by dedicating grounds to eco-friendly gardening, educating students on sustainability, and creating habitats for wildlife and pollinators.
Cill Ula	Donegal	Installation of a 10Kw battery and engaging a community outreach environmental and energy support officer/coordinator
Pobal Eascarrach	Donegal	Installation of solar panels and cavity wall and attic insulation in our community centre. This will benefit the users of our facilities and services.
Spraoi agus Spórt	Donegal	The Sustainable Roots Project will deliver goods, services, and training to empower Inishowen's community with practical skills, fostering sustainability, environmental awareness, and local resilience.
Áislann Rann na Feirste	Donegal	Circular economy project including artmaking and exhibition, community training, recycling, repair and the setting up of a community market.
Fort Hill Integrated College Student Voice	Down	Outdoor eco and well-being classroom to provide a multi-functional space for support, learning, and mental health care, enhancing student well-being in a community-focused school.

Project	Location	Description
Maghaberry Community Association	Down	Solar PV & Battery storage for energy efficiency and carbon reduction, Rainwater collection to reduce wastewater and mains usage.
Citywise Education	Dublin	Increasing the level of climate knowledge and action in a disadvantaged community through an innovative out-of-school programme for local young people.
Powerstown Educate Together National School	Dublin	Replacing school geodome, a geodesic greenhouse invaluable for teaching, learning and emotional development.
Liffey Area Partnership	Dublin	Building a log cabin that can accommodate the provision of climate action and sustainable living education to all ages and to purchase a refrigerated electric van to support the delivery of grown organic fruits and vegetables to local retailers.
Bohemian Football Club	Dublin	Development and delivery of a Green Trade Pre-Apprenticeship, expanding the Spark Skills programs, and coordinating Care and Repair teams to combat energy poverty.
Change Clothes	Dublin	A Dublin 8 community hub offering clothing swaps, repairs, upcycling, training, and support services, fostering circularity, creativity, and inclusivity through innovative textile reuse solutions.
Enniskillen Gaels GAA	Fermanagh	LED floodlight upgrade with solar integration and bio planting to enhance sustainability, improve training facilities, and support community fitness and biodiversity.
An Mheitheal Rothar	Galway	Teaching bicycle repair and maintenance skills to children and young people to increase climate resilience in Galway City and surrounds.
Brigit's Garden	Galway	Empowering schools and communities with innovative climate education, workshops, and biodiversity programmes to inspire sustainable living, renewable energy adoption, and meaningful climate action.
Eyrecourt NS	Galway	Empowering the next generation of climate leaders through a green curriculum, place-based learning, food security awareness (polytunnel for growing and seed saving) and intergenerational learning.
Venture Out Wilderness Project	Galway	The engagement of second level students from across the Galway area in the Green Action Youth Environmental Leadership Programme. Part of a wider biodiversity focused initiative within the City of Galway in a space that is currently being re-wilded, Lough Atalia
Croí Clontuskert Community Development	Galway	Installation of solar panel, EV charger and bottle filler at the community hub to provide sustainable green energy to the community , moving the community building towards a net zero goal and providing a more resilient running model into the future.
Cancer Care West	Galway	Climate Action Program to identify all opportunities to reduce environmental impact while adopting sustainable business practices that mitigate future risks to the planet.
Shining Light Galway	Galway	Food Waste Initiative promoting a circular economy by redistributing surplus food, enhancing storage and transportation, and fostering community engagement to reduce food waste sustainably.

Project	Location	Description
Inishturk Community Club	Inishturk Island, Mayo	Inishturk 2050 Masterplan, delivering a strategic roadmap, fostering sustainability through community-led initiatives in energy, infrastructure, environment, and economic resilience, empowering long-term island development.
Knocknagoshel N.S.	Kerry	Creating a Green STEM Lab, integrating sustainability-focused learning with weather and energy monitoring to inspire eco-consciousness in pupils and the community.
Causeway and District Resource	Kerry	The redevelopment of the old Shannon Ballroom for use as a community centre in Causeway.
Community Connect CLG	Leinster	Scaling for Impact: Securing the Future and Expanding the Reach of Dublin's Baby Bank
Manor Fields Adare	Limerick	Continue mission to become carbon negative leading community facility by upgrading existing Flood Lights to LED, installing Rainwater Harvesting facility and add Biodiversity Ponds along community walking trail.
TASC, Think-tank for Action on Social Change	Limerick, Donegal & Northern Ireland	Facilitating community-led climate action towards a just transition in three communities, rural & urban, connecting these and previous projects via a national network.
Burrenbeo Trust	Limerick, Galway, Sligo, Offaly, Carlow, Meath	The Hare's Corner is an initiative to help landowners make more space for nature through creation of wildlife-friendly habitats such as a Mini-Woodland, a Heritage Orchard, a Wildlife Pond, and provision of bespoke advice on their land in the form of a 'Plan for Nature'.
Sonairte	Meath	Showcasing to local community (including local businesses) how small wind turbines can be used to increase energy independence, reduce greenhouse gas emissions and create low carbon communities in line with the UN SDGs and the government's Climate Action Plan.
Trim Family Resource Centre	Meath	A foodbank that's more than just Food project – will engage local community members to reduce food waste, learn to budget and bring fun back into cooking.
Lough Ree Access For All	Midlands	An initiative for people with disabilities that will promote eco-friendly travel on our waterways by converting a diesel combustion engine powered Royal Canal barge into a new electric powered vessel and reduce carbon emissions dramatically.
Midlands Science	Midlands	Providing STEM outreach for primary and secondary schools focusing on the vital role that STEM plays in climate change and energy production
Irish Schools Sustainability Network	National	The ISSN Sustainability Accelerator Programme will support students, teachers and principals to implement meaningful and innovative sustainability education and programmes in schools around Ireland.
Business In The Community Northern Ireland	Northern Ireland	Capacity-building support for flagship centre for sustainability skill sharing in Ireland, accelerating the organisation's social enterprise and other communities nationwide on the path to net zero

Project	Location	Description
The B!g Idea	Republic of Ireland (Carlow HQ)	The B!G Idea Climate Action Catalyst (BICAC) challenges young people across Ireland to find creative solutions to address critical environmental, sustainability and climate change issues.
Wild Earth	Republic of Ireland (Clare HQ)	Building young peoples' resilience to Ecoanxiety, improving their mental and physical well-being, while empowering them with the knowledge and skills needed to engage with and respond meaningfully to climate change, becoming leaders in their communities in climate adaptation and transition.
Teen-Turn	Republic of Ireland (Wicklow HQ)	Integrating creating green solutions into afterschool learning activities in rural and underserved areas, increasing participant environmental awareness and empowering their development of eco-tech
Common Knowledge Centre for Sustainable Living CLG	Republic of Ireland (Clare HQ)	Capacity-building support for flagship centre for sustainability skill sharing in Ireland, accelerating the organisation's social enterprise and other communities nationwide on the path to net zero
Síolta Chroí	Republic of Ireland (Monaghan HQ)	Empowering grassroots climate leaders through 12 sustainable living workshops, 18 community action events, and 18 regenerative farming meetups, fostering knowledge, skills, action, and community resilience.
GIY Ireland CLG	Republic of Ireland (Waterford HQ)	Empowering post-primary students through GIY's GROW at School programme, fostering sustainability, climate education, and hands-on green skills for a resilient future
Ballyleague Hall	Roscommon	Delivering tangible infrastructure (Solar PV, rainwater harvesting and other sustainability measures), to benefit users of community hall.
St Farnan's Community Park Association	Sligo	Sustainability Upgrades including installation of photovoltaic panels, EV car chargers and bicycle transportation infrastructure to complement remote working hub and other activities.
Cloughjordan Community Football Club	Tipperary	Developing sustainable sports infrastructure and community amenities to foster climate resilience and community engagement.
Ardscoil na Mara	Waterford	Enriching sustainability education for students, families, and the wider community by enhancing composting, expanding leadership programs, and creating a cross-community cultural hub.
Waterford Area Partnership CLG	Waterford	Development of a network of Repair Hubs across Waterford City to promote sustainability, reduce waste, and foster social cohesion through events, training and skills sharing.
Clonroche National School	Wexford	The development of an outdoor sensory trail with both physical and sensory elements to it. It will be used by children for sensory movement breaks, for PE instruction and for play.
YolaHedge School	Wexford	Development farm area into a wetland area that will have recreational, educational, and aesthetic value and will support biodiversity
